Are you tired of being late to class? Are you scared you'll run into the school bully - and have nowhere to run? If you're new to high school, this app will help. Use live maps of your school to find the fastest, safest way to get to class!

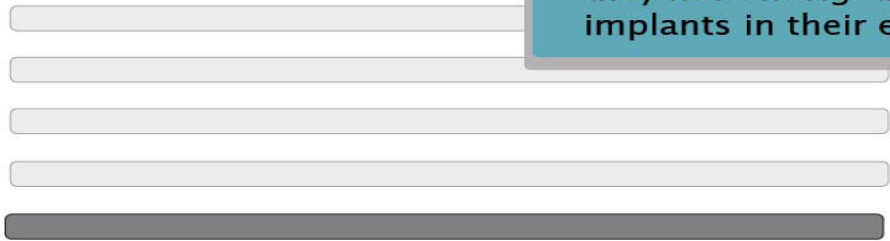

Alejandra:

This thing is called a "mApp" but it doesn't look like a map to me. And did people in 2019 have to use their phones for directions? Didn't they have navigation implants in their eyes?
